Project Description

The purpose of this project is to provide an alternate route for areas along Bailey Bridge Road to Route 288 and amenities along Route 360 (Hull Street). Along with the connector road the improvements for this project will include a roundabout at Bailey Bridge Road, a roundabout at Brad McNeer Parkway, a bridge over Swift Creek, and a shared use path. The Bailey Bridge Connector will reduce traffic volumes on Route 360, provide direct access to businesses and services along Route 360, and provide a safe travel alternative for pedestrians and cyclists.

Get Involved

A comment sheet is included in this brochure. Written questions or comments should be placed in the comment box, e-mailed to FaulknerC@chesterfield.gov, or mailed to the address provided on this sheet no later than October 31, 2019. Displays and meeting materials will all be available for public review online at www.streamlinechesterfield.com and at the address below.

Citizen Information Meeting
Bailey Bridge Connector
VDOT Project 0000-020-820, UPC 111713
Federal Project STP-SA27(616)

Thursday, October 3, 2019, 6:00 - 7:30 p.m.
Manchester High School
12601 Bailey Bridge Road
Midlothian, VA 23112

Welcome to the Citizen Information Meeting for the Bailey Bridge Connector project.
This meeting provides an opportunity for the public to review the displayed project exhibits and give Chesterfield County comments and/or suggestions on this project.

Questions and concerns, raised as a result of this Citizen Information Meeting, will be considered by Chesterfield County before the project begins development of the conceptual design.
